On the *Proficiency Test Overview* page, you will on the top see the PTs that are available for compound selection (*Available proficiency for compound selection*) and below the PTs you have selected compounds for (in future) and eventually a list of the PTs you have participated in (*My proficiency tests*).

Click on the PTs name you would like to select compounds for and you will then see a list of analytes included in the PT. The compounds in alphabetic order, mandatory and voluntary compounds are mixed.

Analytes included in PT: EUPT-CF19 Rye Kernels

This is the target list for the current EUPT. The MANDATORY and VOLUNTARY pesticides are listed alphabetically. As default, all MANDATORY compounds are selected and all VOLUNTARY ones are deselected. Deselect the MANDATORY compounds you will not include in your PT scope and select the VOLUNTARY compounds you will include in your PT scope. Insert your Reporting Limits for each pesticide. As default, the MRL is listed. The Reporting Limits will be saved for your next EUPT-CF.

<input checked="" type="checkbox"/> Compound	Mandatory / Voluntary	Reporting Limits (mg/kg)
<input type="checkbox"/> 1,4-Dimethylnaphthalene	Voluntary	0.005

<input checked="" type="checkbox"/>	Zoxamide	Mandatory	<input type="text" value="0.01"/>

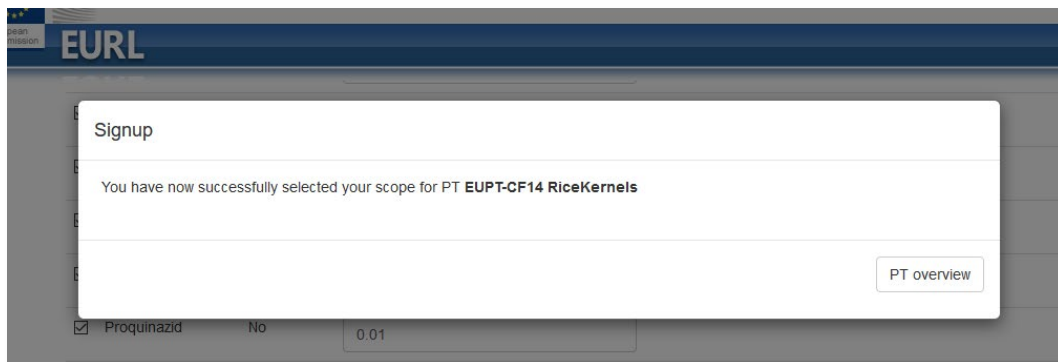

I hereby accept that the selected compounds will define my scope in this EUPT and I cannot change it later on.

[PT overview](#) [Save](#)

As default, all mandatory compounds are selected. Deselect the compounds you will not include in your PT scope and insert the voluntary compounds. Insert your Reporting Limits for each pesticide. In the top, you can select and deselect all compounds. As default, the MRRLs are listed. The Reporting Limit will be saved for your next EUPT-CF.

Mark that you accept that the selected compounds will be included in this EUPT and click on **Save**. **Please, be aware you can only enter the system once and your input is not saved before to the final save.**

On the screen, you will get a confirmation that the selection of scope was successful.

Click on *PT overview* and you will be guided to the *Proficiency Test Overview* page. The PT you selected compound for will now appear under *My proficiency tests* and a **Lab code has been assigned**.
