# Spinach

**Organic spinachs were grown in a greenhouse in Almería, Spain.**

**Before harvest, the spinachs were  
treated with commercial formulations**

## Preparation of the test item

## Homogeneity

The homogeneity in the treated sample was studied using the 2006 Harmonised Protocol.

## Stability

1<sup>st</sup> Analysis - prior to the sample shipment

2<sup>nd</sup> Analysis - after the deadline for reporting results

3<sup>rd</sup> Analysis - reproducing the delivery conditions that the samples experienced during 48 hours

**All the pesticides passed the homogeneity test**
