TRIP SUGGESTIONS:

It is very important that you keep all travel invoices, boarding cards and tickets; without them, obtaining a reimbursement may be difficult or even impossible.

Also, please remember that all these documents must be in your name, not your institution's. If payments are made using your institution's details, we may encounter issues with the reimbursement.

Flying to Almería is often expensive or offers limited options; a good alternative is to arrive via Málaga Airport. So, you could check if the trip via Málaga aligns better with the unit costs for travelling.

We are planning to provide a transfer for the workshop participants from Malaga to Almeria on the **17th at 17:00 (from Málaga airport to the hotel in Almería)** and another on the **20th from the hotel to Malaga airport at 7 am** (the return journey takes approximately 2 hours and 30 minutes; please keep this in mind for your flights).

If the scheduled bus time does not align with your flights, you can also check if other available buses do, there are several buses running to Almería from Málaga city or from the airport itself; their cost may be included in the reimbursable amount if it falls within the applicable unit costs.

This is the typical bus company to do that trip:
