

EURL AO
EUPT AO Matrix
and further studies

EUPT AO 19

- matrix: beef meat
- target pesticide list will be fixed in January 2024
- dispatch of test material: 06 May 2024
- sample amount: 80 g
- no blank material

Interlaboratory study

- matrix: fish
- participation on voluntary basis
- shipping date: together with EUPT AO19
- More time for reporting! Deadline will be after EUPT AO 19

Standard solution pyrethroids

- EURL AO will provide standard solutions for problematic pesticides (e.g. pyrethroids like deltamethrin, permethrin, cypermethrin, cyfluthrin) and send it to interested NRLs for comparison with their standards
- Pyrethroids have shown higher standard deviations in previous EUPTs
- What will be the results, if only standards were measured?
- shipping date: together with EUPT AO19, time for reporting will be after the EUPT deadline!
